

Author Publishing

Code: AUTHOR_PUBLISHING

Version:

Article 1 — Author Eligibility

Authors must complete identity and contact verification. Publishing rights may be adjusted based on quality, violations, law, or risk.

Article 2 — Content Responsibility

Authors warrant lawful rights, proper sourcing, no infringement, no unlawful or misleading content, and human review of AI-assisted material.

Article 3 — Bilingual & AI Processing

Authors consent to translation, summarization, formatting, categorization, SEO, and technical conversion for publication; material rewrites follow platform review flows.

Article 4 — Publishing Rights

The platform may auto-publish, manually review, request revision, or reject based on plans, quotas, risk, and review outcomes.

Article 5 — Takedown

For disputes, errors, legal risk, or complaints, content may be restricted or removed pending author response.
